

## Year 5:

Dear student,

If you are reading this it means that the school is closed and you are stuck at home. Well I wouldn't want you to miss out on school work so I have set you some tasks to complete.

### Task 1:

Write a three stanza poem about the weather you can see outside. I suggest you write it on a piece of scrap first and then write it up in good. Make sure you draw some lovely illustrations around the poem and colour them in.

### Task 2:

For this next task you need to use the internet to research what children packed in their suitcases before they left home to get away from the bombing in London during WWII. You will need to put together a fact file about the items they packed and say what you would pack in a suitcase if you had to leave the island. Please use drawing to help you display

### Task 3:

Each day that you are off school I would like you to read a chapter of your book.

### Task 4:

Each day you are off school I would like you to practise your times tables, the one I have set you. If you manage to learn them, please recite them to your parent/guardian. If they agree you have learnt them, see if you can say them backwards; remember to recite the whole number sentence not just the answers.

This should be enough work for your days off.

Kind regards,  
Mr Le Huray
